Lynda.com - Foundations of Programming: Fundamentals, Foundations of Programming: DBs, Foundations of Programming: OO Design, C# Essential Training, C# Test Driven Dev., C# 6.0 First Look, Up and Running with Java, Unity 5: 3D Essential Training, Scripting Unity with C#

PROJECT EXPERIENCE

MovieLot — A web application designed for the home theater enthusiast that allows users to keep track of, reference, and share their movie collection.
<https://github.com/kevinicus37/MvcTesting>

- Integrated use of a 3rd party API allowing users to more accurately add titles and find relevant images and trailers.
- Utilized ASP.NET Core MVC using C#, HTML/CSS, Bootstrap, SQL/EntityFramework Core, and TMDb.org database via API

Techjobs — An introductory Java/Gradle project used in database adding and searching.
<https://github.com/kevinicus37/java-web-dev-techjobs-persistent>

- Expanded on provided project structure to add and search for jobs in a database
- Used Thymeleaf templating for generating web pages and SQL for data persistence

WORK EXPERIENCE
